THE PEOPLE'S PAPER.

HERALD.

SALT LAKE  
DAILY HERALD.

The HERALD enters upon the new  
year with better hopes and brighter  
prospects than it ever before enjoyed.  
The remarkable success of the paper  
in the past, as manifested by its large  
and steadily growing subscription  
list, its increasing advertising patron-  
age and the expressions of goodwill  
towards the journal which greet us  
from all quarters, convince the pub-  
lishers that they are doing what they  
set out to do—namely, furnish a  
newspaper that the people would like,  
and therefore support. The HERALD,  
as in the past, will be the people's  
paper. Independent in a political  
sense, it will always be found  
on the side of the people, outspoken  
on questions affecting the rights of the  
masses; reflecting the opinion of the  
ment and the largest liberty to indi-  
viduals consistent with public good;  
laboring for a pure, honest and econ-  
omic administration of government;  
treating public matters dispassion-  
ately and employing language calcu-  
lated to enlighten the reason of men,  
rather than influence their passions,  
and working for peace and the de-  
velopment of the resources of the ter-  
ritory, instead of trying to create strife  
and retard progress. With our in-  
creased facilities for gathering news,  
both by telegraph and mail, the em-  
ployment of a larger number of cor-  
respondents in different sections of  
the country, and the better arrange-  
ment of all the many details of the  
establishment, we confidently promise  
to make the SALT LAKE DAILY  
HERALD a better paper than ever.

SALT LAKE  
WEEKLY HERALD.

About the 1st of March, we will  
begin the publication of a Weekly  
Edition of the HERALD. The demand  
for such a paper has been very  
pressing during the past two  
or three years. The aim of the  
publishers will be to furnish a  
paper for those people who live  
on the main lines of travel and who  
are not accommodated with mail ser-  
vice often than once a week; to  
provide a newspaper for those who  
have only one day a week of leisure  
to devote to the pleasant and profit-  
able employment of reading; to supply  
a suitable edition of the HERALD for  
sending abroad—a paper that shall  
faithfully and honestly represent the  
great and growing territory, with its  
many and important industries and  
its thrifty, enterprising people; to  
make a paper for the home circle and  
family bedside, one that shall contain  
the news, and at the same time com-  
bine the essential elements of a lit-  
erary, educational and industrial  
journal. In fact, our aim will be to  
make the WEEKLY HERALD a welcome  
visitor to the home, where it will be  
found a constant fund of instruction,  
entertainment and profit, to  
all members of the family.  
Besides the leading characteristics of  
the Daily, the Weekly will contain  
matter specially for the agriculturist,  
the gardener, the stock-raiser, the  
mechanic, the miner and the house-  
hold generally, and an important  
feature of its columns will be the  
well-chosen, entertaining and moral  
literature, also reports of the Taber-  
nacle discourses. Nothing will be ad-  
mitted to its columns that has not  
first been carefully prepared and re-  
vised. The price will be only \$2 a  
year, a figure unprecedentedly low  
for a far west newspaper. We confi-  
dently predict for the WEEKLY  
HERALD one of the greatest successes,  
and the efforts of the publishers are  
made to make the paper merit the popu-  
larity that it cannot fail to attain.

### BACKBONE.

The Maine Fusionists have  
had Their's Strengthened.

Two Legislatures and Two  
Governments.

War Preparations by the  
Republicans.

Boston, 19.—Herald's August: The  
senate in the state house during the  
afternoon hours were extraordinary. The  
granite walls of the structure resembled a  
mighty wall of steel. In every  
passage way from the subterranean  
regions up to the roof were policemen,  
armed with revolvers. Police men chal-  
lenged the steps of the exceedingly high  
persons who had by special favor gained  
admittance. A double guard protected  
the governor's room. The spacious  
rotunda below was filled with men and  
when anyone succeeded in getting past  
the guards at the step gate he was not  
admitted to the state house without  
scrutiny from vigilant sentries, who  
tended carefully the locked door. The  
younger guardians on duty did not  
hesitate to show their revolvers, and  
were anticipating a hot contest with  
the fusionists, whom they believed  
were about to arrive by railroad. A  
special force of 120 or more men was  
tailed to stand guard on the balcony  
fronting State street. Just before the  
arrival of the fusion legislature on the  
sidewalk below this balcony, the force  
was ordered into the hall of the house,  
where they were drawn up in military  
order and divided into squads. General  
Charles Matthews, of Portland, was in  
command of this contingent, and he ap-  
pointed Major A. Benson, of Portland,  
adjutant. When the gun were about  
to move out to the balcony, General  
Matthews commanded them to break  
step, fearing that the movement of so  
many men would be heard by fusionists  
on the sidewalk, 300 feet distant, so when  
the men went out they broke step and  
marched in unison, making no noise.  
They were all armed with revolvers,  
and from their elevated point in the  
left balcony could have guarded the  
steps leading from the State House  
against a force of 3,000.

August 19.—Failing to gain ad-  
mission to the state house, to-day, has  
seemed to cement the fusionists. They say  
Governor Smith could have had 10,000  
men in readiness at a moment's notice,  
but his counsel for peace has prevailed.  
The meeting, however, failed miserably  
seemed harmonious. They have secured  
Union Hall, where they will hold their  
legislative assemblies, beginning to-mor-  
row. The secretary of state and gov-  
ernor have secured rooms in the same  
building. Money enough has been  
guaranteed to run their legislative ses-  
sion, and pay every man his salary. They  
say they intend to appeal to Con-  
gress and will soon have a committee  
to investigate the matter. That the  
committee will report to-morrow unani-  
mously declaring their body to be legal,  
but have not determined on any definite  
plan of action. Republicans say they  
legislature cannot hold together a week,  
but in the present frame of mind of  
fusionists it is impossible to predict. It  
is thought the fusion legislature of the  
state house to-day, they would have  
held it until expelled. This afternoon  
500 men were in the hall of the house,  
in the office of the superintendent of  
buildings, which had been a sort of head-  
quarters for fusionists, besides loaded re-  
volvers.

August 19.—Machinists worked  
all night on the safe in the secretary's  
office, and finally opened it. There were  
valuable papers in it, the seal of the  
state or official election returns. It is  
conjectured that the returns have been  
destroyed.

The fusion senate and house were  
called to order at 10 o'clock in Union  
Hall, at Water street. In the house,  
Dickey, for Don Knapp, moved that the  
committee appointed on Saturday to  
recommend a course of action be in-  
structed to report also on the proceedings  
of yesterday at 4 p.m. to-day. He re-  
quested a telegram from friends in Oc-  
ford urging fusionists to stand firm, re-  
cognize to usurping legislature, to stand  
by the legal governor, Smith, and  
money would be ready to stand with  
the last. He said all parts of the state  
felt the same way about this act of violence.  
It had strengthened the fusionist cause  
and bound them together. Several fol-  
lowed, accusing the republicans of bribery  
and intimidation at the polls, of plan-  
ning to go to the polls with the fusion  
supreme court and of usurping the gov-  
ernor's office. Fusionists should say to  
the court "Hands off we will not be  
suppressed by your partisan friends. The  
dark cloud of treason hangs over us. The  
capital is in the hands of rebels. If we  
stand firm victory will be ours." A com-  
mittee was appointed on pay roll and  
mileage of members.

Dickey said if the state treasurer  
refused to pay out funds for this it would  
be a disgraceful thing. He said the fusion-  
ists were in safe hands and if they  
were careful all would be well. He  
denounced three or four republican talk-  
ers. Staples said he had told the republicans  
who invited him into their legislature,  
that the body was not legal, but he had  
been told that they were not to be  
bothered with such questions. He said  
he had no food—nothing but a sign.  
His quiet remarks provoked great  
laughter.

The fusion senate met in the ante-  
room. Patton said we are waiting a  
reply from the judges whether they will  
entertain questions from this body.  
Fenton believed the legislature was im-  
perfect in the country. Barker said at-  
tempts were made to bribe him, and he  
hoped the resolution would pass.  
Thompson, of Knox, believed friends  
were practised.

Ellis said he wished an opinion of the  
court. He thought the fusion legisla-  
ture was not legal, but the senate was a  
legal body; that no business transacted  
by the house would stand legally. Some  
action must be taken that will be re-  
cognized by the court; also some action that  
would affect the greenback party in the  
spring elections.

Patton had come to Augusta to do the  
duty imposed upon him as a legislator.  
He believed the branches legal, and that  
we should proceed to the transaction of  
business.

Adjourned to 4 p.m. It is thought  
the committee will report in favor of the  
adjournment till May.

The matter of pay roll was taken into  
consideration. Where the funds are to  
come out is not definitely known. It  
is not believed that the fusionists can  
hold out long, unless money outside the  
state is obtained.

The legislature is in session at the state  
house declares the existence of the fusion  
legislature without authority, and  
ordered an inquiry whether legislation is  
necessary to justify the abstraction of  
state records and property.

Boston, 20.—The Herald's August  
special says: In a republican house  
this morning, a committee was re-  
ceived from Wallace White, of Win-  
throp, demanding an investigation of the  
charges of bribery preferred against him  
by fusionist legislators. White states  
that he has been waiting for the organi-  
zation of the legislature to present his  
case. A special committee will in-  
vestigate the case.

Eugene Hale offered a resolution  
declaring the state government fully estab-  
lished, and demanding that all other bodies  
pretending to be part of the state gov-  
ernment be unconstitutional.

## THE UTO INQUIRY.

Chicago, 20.—Times' Washington:

The investigation into the Uto In-  
quiry was resumed to-day by the House com-  
mittee on Indian affairs. The meetings  
of the committee are held with closed  
doors. General Carlton, of the Indian  
Commissioner Hayt, of the Indian  
bureau, were examined. General Hayt  
testified that in his opinion the outbreak  
was attributable to several causes of irri-  
tation, which have been operating upon  
the Uto for some years. Among these  
causes he enumerated the following:  
First, That the Indians were cheated out  
of a portion of their lands under the  
Bureau treaty; second, the failure of  
government to pay annuities \$25,000 to  
which they were entitled under that  
treaty; third, failure to deliver supplies  
from 1875 to 1878; fourth, forbidding the  
sale of arms and ammunition on the  
White River Agency, which compelled  
the Indians to go off the reservation to  
get ammunition with which to kill game  
with, in violation of the Agent  
Meeker, who, General Hayt says, was as  
united for this office as a man could be to  
deal with Indians; fifth, Meeker's threats  
to bring troops and the fact that troops  
actually were advancing.

## Domestic Dashes.

Jacksonville, Fla., 19.—Gen. Grant  
and party arrived this afternoon from St.  
Augustine, and leave to-morrow for  
Clear Key, to take steamer for Havana.  
Kansas City, 19.—Questions on  
morning papers have struck.

New York, 19.—The long talked-  
of investigation into the Uto In-  
quiry was resumed to-day by the House com-  
mittee on Indian affairs. The meetings  
of the committee are held with closed  
doors. General Carlton, of the Indian  
Commissioner Hayt, of the Indian  
bureau, were examined. General Hayt  
testified that in his opinion the outbreak  
was attributable to several causes of irri-  
tation, which have been operating upon  
the Uto for some years. Among these  
causes he enumerated the following:  
First, That the Indians were cheated out  
of a portion of their lands under the  
Bureau treaty; second, the failure of  
government to pay annuities \$25,000 to  
which they were entitled under that  
treaty; third, failure to deliver supplies  
from 1875 to 1878; fourth, forbidding the  
sale of arms and ammunition on the  
White River Agency, which compelled  
the Indians to go off the reservation to  
get ammunition with which to kill game  
with, in violation of the Agent  
Meeker, who, General Hayt says, was as  
united for this office as a man could be to  
deal with Indians; fifth, Meeker's threats  
to bring troops and the fact that troops  
actually were advancing.

Patel, de Monck and Clapp, sailed  
for Australia yesterday. Chitola and  
the others of the troupe remain here.  
Philadelphia, 20.—A special meet-  
ing of stockholders of the Texas and  
Pacific Railroad Company, this after-  
noon, the mortgage on the Rio Grande  
division was approved.

## Germany in the Pacific.

Berlin, 20.—The Official Gazette pub-  
lishes a telegram from the German con-  
sul general at Apia, Samoa Islands,  
dated December 24th, denouncing the  
authority of Matileia has been re-  
cognized throughout the whole country,  
and the conflict is ended.

In the Prussian Diet, yesterday, Zoro  
Biller, minister of finance, referring to  
the attacks on government because of its  
participation in the establishment of a  
German maritime company of Samoa,  
said Prussia could not oppose the imperial  
charter without duty was rather to  
promote them. Public feeling on the  
subject, he said, was shown by the fact  
that the subscriptions to shares of the  
company exceeded the sum required.  
It was very essential, he declared, that  
the German interest in Samoa should be  
supported by German energy and re-  
sources.

## Spain.

Madrid, 19.—Cuban members of the  
Chamber of Deputies will present an  
amendment to the bill for the abolition  
of slavery asking government to promise  
reforms to facilitate Cuban trade  
with foreign countries, and to declare  
the privilege of the coasting trade exten-  
ded to West Indian provinces. If their  
desires are granted, the Cuban com-  
merce will be greatly benefited. The bill  
was not voted in favor of the ministerial  
bill. The opposition unanimously resolved  
that no reasons exist for discontinuing  
the policy of abolition because the pres-  
ident of the Cortes is not empowered to  
propose a settlement which they deem  
necessary for their dignity.

## Capital Notes.

Washington, 20.—The Senate finance  
committee to-day, postponed action on  
Morton's nomination for collector of  
internal revenue until next Tuesday's  
meeting.

## The Boilers Getting Ready.

Albany, 19.—A conference of Tam-  
many democrats from all parts of the  
state will be held here on Wednesday. It  
is expected that about 100 prominent  
men will be present. John Kelly will be  
here. The object of the meeting is to  
make preliminary arrangements for the  
residents of the state. The result of  
the conference will be to take immediate  
steps for calling a convention of democ-  
rats opposed to Tilden, which shall take  
such steps as may seem best to defeat any  
move now or hereafter to be made to  
secure Tilden's nomination.

## Too Many Vessels.

New York, 20.—The Herald, to-day,  
says: There never was a time in the  
history of New York when so many ves-  
sels lay in the harbor awaiting cargo.  
On Saturday last the number reached  
574 of all grades and for all destinations.  
The stress of weather has had something  
to do in producing this depression of  
trade, but in the main it is due to the  
stagnation in trade, especially in the  
grain and provision market.
